

## 2 Simple tabulations: 4-column table with computation and graph

Prepare the table below using appropriate spreadsheet software.

- Use a formula to compute the % change shown in the last column.
- Sort the data within each section by destination.
- Place a thick border around the main column heading.
- Prepare a column chart comparing the 2012 and 2013 data for January to April. Label all axes.
- Print the table (portrait) and graph (landscape) centred on separate pages.

Cruise Passenger Arrivals - 2013 & 2012

Destination	2013	2012	% ch.
Antigua & Barbuda	339,106	356,562	-4.9
Aruba	362,467	343,631	5.5
British Virgin Is.	235,120	252,922	-6.9
Haiti	548,862	586,938	-3.7
Puerto Rico	253,969	263,845	-6.5
St. Vincent & the Grenadines	55,408	48,941	13.2
St. Maarten	1,012,772	1,119,031	-0.5
Period: Jan-May			
Bahamas	2,109,254	2,031,397	3.8
Martinique	71,072	66,332	7.1
Curacao	323,778	273,934	18.2
Period: Jan-Jun			
Belize	385,116	368,325	4.6
Barbados	349,335	315,773	6.2
Cozumel (Mexico)	1,445,525	1,521,319	-1.7
Cayman Islands	792,976	879,190	-9.8
St. Lucia	709,133	352,771	-2.0
Jamaica	345,589	775,312	-8.5
<del>St. Maarten</del>
